

### Remarks

In the parent application, an Office action set forth a restriction requirement alleging that claims 1-8 were drawn to a first invention (of a capacitor structure), while claims 9-14 were drawn to a second invention (an induction device). In that parent application, Applicants elected to pursue claims 1-8, which have been allowed. Applicants now pursue restricted claim 9-14 in this divisional application.

All claims 9-14 are believed to be in condition for allowance, and the Examiner is respectfully requested to pass those claims to issuance. If the Examiner believes a teleconference will expedite the examination of this application, the Examiner is invited to contact the undersigned attorney at 770-933-9500.

No fee is believed to be due in connection with this Preliminary Amendment. If, however, any fee is deemed to be payable, you are hereby authorized to charge any such fee to deposit account 20-0778.

Respectfully submitted,

Daniel R. McClure; Reg. No. 38,962
